Benefits:

- Modular Design
- Low Profile Concept
- Increased Caster Yield
- Level II & III Compatible

We specialize in complete
Caster Modernizations

Call (905) 662-5999  Fax (905) 662-2633
208 A Arvin Avenue, Stoney Creek Ontario, Canada  L8E 2L8
Continuous Caster
In-line Weighing Systems

DESIGN CONCEPTS:

- Modular Weigh pier system for quick change.
- Automatic product Weighing
- Self calibrating module for offline servicing.
  Three point load cell arrangement for accurate & consistent weights..
- Load Cell mounting provides self checking for improved accuracies..
- Weigh Pier Module is designed with internal water and air cooling..
- Lifting action by hydraulic cylinder via the centrally located lift plunger assembly.
- Support Structure provides a modular mounting configuration to allow full inter-changability of weigh modules.
- Quick Disconnect Connectors provide quick and simple change of weigh modules for offline servicing..
- Support Frame designed with internal passage for all supply lines, piping and fresh air cooling to reduce effect of strand radiation.
